QUALITY POLICY STATEMENT

Ring Automotive Limited is an established sector leader in the design, manufacture and distribution of automotive lighting, electrical parts and accessories, associated leisure and travel products and electrical management systems for specialist vehicle sectors.

Ring Automotive Ltd.'s Quality Management System aims to offer products which exceed customer expectations in terms of safety, performance and value for money.

As a commercial enterprise we are aware of the importance of satisfying our customers and of the impact on profitability of nonconformities. For these reasons we are committed to complying with all customers' quality, legal, statutory and other requirements as a minimum and to continually improving the effectiveness of our Quality Management System to satisfy all the requirements of the ISO 9001:2015 Quality Management System standard.

Objectives for quality and business performance are set in line with the company strategy. Through our Quality Management System and objectives we aim to:

- Promote the use of the process approach and risk based thinking to ensure effective control over critical functions
- Ensure effective supply of products through our approved supplier network
- Continually improve our products and services
- Provide effective communication with customers and end-users to assess their needs and expectations

This Quality Policy is reviewed for continuing suitability at the Management Review. It has been communicated to all members of the company as per the documented procedure in the Quality Manual, is made known to all new employees at induction and is displayed at various locations throughout the site.

Nick Davy
Managing Director
